My Cell Phone

- ▶ My phone is a ZTE ZMAX Pro
- ▶ Model number Z981
- ▶ Operating System: Android version 6.0.1

I chose this phone because . . .

- ▶ Size:
The screen is six inches. I wear glasses. I need a large screen.
- ▶ Price:
Because I was a Metro PCS customer at the time I was able to purchase this phone for \$99.
- ▶ Reviews:
I did my homework. I looked at reviews online.
I also went to YouTube to watch reviewers talk about the phone and show how it works.

Things my phone does well . . .

- ▶ It does the basics well. That's all I usually want from my phone. I take pleasure NOT using my electronic devices.
- ▶ The telephone works well.
- ▶ Photos look good.
- ▶ The WIFI hotspot works.
- ▶ The phone is easy to use.
- ▶ The phone's color and size allows me to easily see what is on it.
- ▶ Battery life is reasonable.

Things I wish my phone did better...

- ▶ When I am outside in brightly lit situations it is hard to see what is on my screen. I wish this was not so.
- ▶ When I record music in a loud space the sound quality is poor.
- ▶ My external chip, the one I purchased for recording video and photos cannot be saved to presently. At some point it stopped retaining pictures. I have taken this to be fixed and the people I went to could not fix the problem. It remains a mystery. I now have to save all videos and pictures directly to my phone. Most annoying!

Summary

- ▶ All in all, I am glad that I made this purchase. The phone does what I need it to do most. I use it as a camera and a reliable alarm clock. I run some basic apps. As I said before, I choose not to use my handheld device as frequently as many people do. I need it to be there when I choose to use it and it usually is.
- ▶ For the price and basic features that I need it was and remains to be a solid purchase.
